

SAND DUNE RESTORATION PLANTING

NAVAL AIR STATION OCEANA-DAM NECK ANNEX
VIRGINIA BEACH, VA | OCTOBER 23-24, 2015

HELP REBUILD SAND DUNES!

Sand dunes protect land by acting as natural barriers to prevent erosion and absorb wave energy. Without this protection, soft coastline would rapidly disappear.

The National Aquarium—in partnership with the Commander Navy Region Mid-Atlantic, the Naval Facilities Engineering Command Mid-Atlantic, and the Virginia Aquarium and Marine Science Center—will plant native dune grasses, restoring habitat for local wildlife while protecting the shoreline.

VOLUNTEERS ARE NEEDED!

Registration is required. Space is limited. Contact us today!

Please contact Stephanie Mathias at 410-576-1014 or conserve@aqua.org to receive a registration packet.

All participants must be 10 years or older and U.S. citizens. Participants under the age of 18 must be accompanied by an adult. This event is rain or shine, so please dress for the weather.
